RE: SERVICE PROVIDERS FOR THE PLAN

The deadline to contract as a service provider for the plan before start up date will be coming up soon. If we have not discussed your participation and you are interested please contact us. Call John Friedrich, Executive Director, at 1-866-779-6632 to discuss.

In a little over 2 months the Authority, with help from over 180 collectors, 3 (or more) processors, several transporter/carriers, local , city and county governments and the Department of Ecology will swing into action to carry out the operational components of the electronic product recycling act. The Authority has contacted hundreds of potential service providers for collection, transport, and processing services to the plan. There is still time for you to participate but we must talk soon in order for you to participate by the start up date of January 1, 2009. The WMMFA has contacted over 95% of those that originally expressed interest in being a service provider for the plan. If we have not contacted you yet please contact us as soon as possible via phone call or an e-mail as although we are not 100% through our potential participant list it is possible that we missed you. We do want to hear from you and discuss any opportunity that might be available to you as a service provider for the plan.

Regards,

John Friedrich  
WMMFA Executive Director
